

'A' RATED FUTURE-PROOF THERMAL TIMBER WINDOW PRODUCTION @ KENDAL COLLEGE

28th October 2015

Kendal College, Milnthorpe Road, Cumbria, LA9 5AY

Leitz Tooling is holding the next in its hugely successful series of one-day timber window production seminars at Kendal College in Cumbria in October. Companies who attended previous seminars and customers who are using Leitz ThermoTech Window System said:

"The fact that Leitz has already done the work with the BFRC for energy rated window licences was a key factor in our decision to buy their tooling, and we're winning most of the work we quote for." TimberMaster, Leics

"We made 70 sashes in two mornings then straight to the paint shop. This would have normally taken a whole week." Towers & Keightley Ltd, Leics

"The tooling was delivered at 11am; we started production by 1pm – it was that easy." Sutcliffe Joinery, Leeds

Register now! With companies looking to diversify, keep up-to-date with regulations and seek a competitive advantage - along with the prime location of Kendal College for the North West - places for the seminar are expected to go quickly. The seminars are accredited by the BWF's Woodworking CPD Programme.

Practical demonstrations of timber windows being made in a matter of minutes will be held in the afternoon.

Seminar places are charged at £10 per person, which will be donated to local charities. Coffee and lunch is provided. Places are strictly limited – email salesuk@leitz.org or call **01279 454530** for more information and to confirm your attendance.

Yours sincerely,
Leitz Tooling

Seminar Agenda

- 09.30 - 10.00 **Arrival and registration**
- 10.00 - 10.15 **Welcome from Kendal College**
- 10.15 - 11.00 **Leitz Tooling UK - ThermoTech Window System - Tooling**
